9. **New Business**
   a. Policy: Private Utility Infrastructure (lake lines and water lines): Past practices will continue. Lines will be identified by the contractor. If a line is accidentally hit it will be repaired at the Hamlet expense unless it is an electrical line that is deemed unsafe. The Policy is with the RM for approval.
   b. Year in review: Engagement forum
   Vice Chair, Ron Ackerman addressed the meeting, noting that ongoing negativity and harassment continues to create significant challenges for the Board, to the point that two of the three board members recently considered resigning. He advised that

any concerning emails have been/will be forwarded to the RCMP and charges will be laid if deemed appropriate, and the Board has also received authorization to engage legal counsel if necessary.
Bob Purtil, Reeve asked the Board to explain what happens if there is no Hamlet Board. The Board emphasized that without a local Board, governance of the Hamlet would revert to the RM and our Hamlet status would be lost forever as the Saskatchewan Government is no longer granting organized status to Hamlets. We don't want this to happen as the RM will not give Parkview the attention a Board does.

c. Parkview Hill Road (old entrance)
Old hill road is the RM's responsibility. Concerns have been brought to RM's attention. Waiting for a response.

d. Q&A
Shelley Dalman suggested residents develop a social committee. The response was positive and a committe was formed. The chair added to the discussion that the board had set aside funds to host community events in the budget.
Parkview Social Committee Members are Shelley, Carolyn, Amanda, Heather, Amber. Thank you for stepping up.

10. **Elections:** Vice chair position, 3-year term.
Ron Ackerman nominated Barry Holick. Barry accepted the nomination.
The chair called for additional nominations three times. Barry Holick won by acclamation.
