Construction Status Report:

Cleaning of ditch areas and culverts is complete.

Efforts to secure hydro seeding contractors for the ditches are ongoing as finding a provider has proven difficult. Hydro seeding is essential for stabilizing the area and managing erosion.

The Pine Tree Road culvert remains uncleaned due to a buried end. This will be addressed during construction later this year.

The board consulted with the RM regarding a non-urgent culvert issue on the road to P1 from North Haven Drive, with plans to have the RM address it in the next year or two after securing funding for the hamlet work.

Ditching work near Parkview Road, across from PR2, will be finished in coordination with RM operations this year.

Dust control did not happen at the top of Hidden Ridge Road. Leona has spoken with the RM that we still require this done. This will also help with erosion.

New Business:

AGM – The board will start working on the agenda at the end of June.

Community Garage Sale – Some residents have approached the board about having this event in the Hamlet Quonset. Date will be July 4, 2026, time suggested time will be 10 am to 2 pm. Please advise Leona to secure a table. Add Kick it to the Curb to dispose of free items in front of individual property.
